## :: Creating Your Poster

Consider the following when putting a poster together:

- **Using the Adobe Illustrator .ait file as your guide, divide the contents of the poster into the appropriate sections:** Title of paper, author, institutional affiliation; abstract; introduction; methodology; data; results; conclusions. Be sure to include each part in separate sections of the poster layout.

- **Arrange the contents in a series of 3 columns. Place the elements of the poster in position:**

- + The title will appear across the top.
- + A brief introduction should appear at the upper left.
- + The conclusions will appear at the lower right.
- + Methods and Results will fill the remaining space
- + Feel free to adjust the size of the template's sections, picture boxes, color scheme, etc. to fit your projects requirements.
- **Avoid fonts that are script or difficult to read.** Use larger (than 16 font) lettering for the poster's title, author and institutional affiliation. Make the lettering at least one inch high.

- **Be concise with written material.** Save elaborative points for discussion/interaction with viewers. For conclusions, focus on a central finding that lends itself to informal discussion.

- **Use illustrations, graphs, charts and/or tables** (color if possible) to show results.

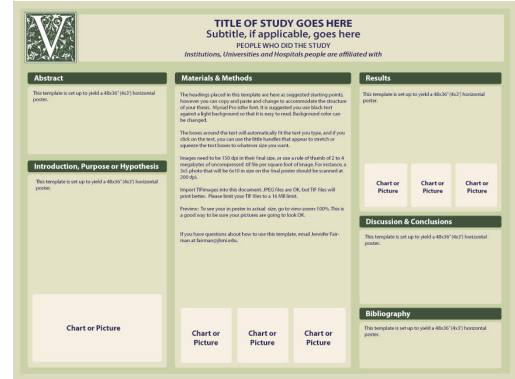

- **Use a neutral-colored poster background.** Save splashes of color for illustrations/diagrams, subtitles, or central findings or provocative results. Again, feel free to adjust the size of the template's sections, pictures boxes, color scheme, etc. to fit your projects requirements.

- **Have a notepad handy** when presenting at a poster session. It may be helpful in elaborating on a findings, or for taking names & addresses of people interested in your research.

- **DO NOT use the text of a paper as the poster!** If you choose to, have copies of a paper at a table for viewers to take.

- **DO NOT be absent from a scheduled poster time** -- The whole idea of a poster session is to create additional opportunities for you to interact with other interested scholars and AMI members!

- **Please read the entire guidelines before you begin laying out your poster.** Posters must be received **no later than 5:00 p.m. EST on Monday July 13, 2010.** Any poster e-mailed/postmarked after this time and date will be automatically rejected—no exceptions will be made.
